

What's New and Improved in Timeslips 2012?

Transactions: Choose the default payment type

Through a new preference, each user can now choose which payment type will be used as a default when new payments are entered into the system. As we learned in the last edition, payment types that are not used can be removed from the payment type list.

Transactions: Settings

A/R Transactions

Default payment type

| | |
|---------------------------|---|
| Check | ▼ |
| Check | ▲ |
| Cash | |
| American Express | |
| Visa | |
| Master Card | |
| Discover | |
| Japan Credit Bureau (JCB) | |
| Debit Card | ▼ |

To set this preference, click on the Setup menu and then click on Preferences. Now click on Settings in the Transactions area of the left hand navigation bar and set the default payment type for each user.
